**REPORT OF PARENT'S FEEDBACK ANALYSIS FOR THE ACADEMIC YEAR 2018-2020**

The purpose of this institute was to find talent, develop potential, and support students in pursuing their goals and becoming successful professionals by offering assistance. Since parents have put their children's future in our hands, they are crucial to the growth and improvement of the caliber of this educational process. Parent feedback enables the institution to assess the quality of the services it offers and improves its ability to serve children.

The process of feedback analysis has resulted in a greater focus being placed on the necessity of parents' involvement in the quality assurance of excellent education. In order to support their children's holistic development, parents must actively participate in their lives.

Similarly, each year during the end of the semester in April, parents of undergraduate students in their last year receive feedback questionnaires. The IQAC department handled the dissemination, collection, and circulation of the completed feedback forms.

**Goals of parent feedback on the institute:**

There are three primary goals for parent feedback:

1. To give parents the chance to weigh in on the caliber of their ward's educational experience, if needed in order to get ready for and participate in the review process.
2. To evaluate the effectiveness of academic offerings in light of parents' and students' expectations.
3. To give faculty input so that the curriculum's content and/or delivery can be improved.

**The parent's feedback form focuses on the following issues:**

**1. How would you rate the infrastructure of the college?**

a. Very good b. Good c. Average d. Below average e. Poor

**2. What is your assessment of the security arrangements and safety measures in the college?**

a. Very good b. Good c. Average d. Below average e. Poor

## ANALYSIS & ACTION TAKEN REPORT

### **Tools and techniques used for analysis**

After the survey, the mean score for each question has been calculated and then the overall mean has arrived at. The collected information has been analyzed with the help of frequency tables, percentage and Likert scale.

The following formula was used to calculate score for a question.

$$\text{Score (n)} = \frac{\text{Students response (\%)} \times \text{Scale of option}}{100}$$

$$\text{Sum of Score} = \sum \text{Score for each option}$$

After applying the above formula for the entire questions, the score and their respective sum are as follows
